

Business Benefits Since Relocating to Kingsway

Better equipped with larger machinery and a larger office space, with plenty of space to grow.

What Would you Recommend About Kingsway?

“There are some big companies at Kingsway, but it has a real sense of community. Everyone is friendly, we all talk to each other and many of the companies do business together.”

Background

The Best Thing About Kingsway Business Park

Able to operate more efficiently and be more productive by having the space to enhance manufacturing processes.

“The support from RDA from day one has been useful and helped us. Any issues we have had they have resolved.”

Commercial Blinds specialises in a wide variety of office and commercial window blinds and glazing solutions. They pride themselves on being an efficient and reliable nationwide supplier.

Having outgrown the existing premises, Commercial Blinds were looking for a new place to call home to give them the space and transport links needed to support the business and help it grow.

Serving the whole of the UK, the direct access to the M62 and other major motorways at Kingsway Business Park was a huge benefit and a key factor in the decision for the business to relocate.

Being a new development, Commercial Blinds were able to put their own stamp on the new premises at Kingsway Business Park. Having this freedom to make it their own enabled them to build a space that provided room to manoeuvre and manufacture and store products.

The move has enabled Commercial Blinds to increase their office space and install larger machines that help improve their manufacturing processes in the warehouse.

“We are UK based, so the motorway links and location of Kingsway were a real pull. The company had been looking for new premises for some time and Kingsway was the by far the best option for us.”
